## DEMANDS CUSTOMS WAREHOUSE HERE.

Business Men's League to Bring the Subject Before Missouri's Representatives in Congress.

### PRESENT SYSTEM CRITICISED.

Its Defects Brought Out by Investigation of Importers' Complaints—Inadequate and Inconvenient.

St. Louis will use at once the necessity for a Government storage warehouse to be located on the river front, of sufficient size to adequately accommodate the growing import trade of the city. This action was decided upon at a meeting of the Executive Committee of the Business Men's League, held yesterday afternoon.

The question came up as a result of complaints preferred by C. H. Wyman against the Custom-house officials, alleging that there had been a number of seizures of goods in bond. The committee having the investigation in charge, through Traffic Commissioner Parker, reported that it had found the office had been conducted in accordance with the law of the department and the rule of the Treasury Department. The committee further reports as follows: "The present system of receiving, handling and delivering of goods at this port, which is virtually and practically in East St. Louis, is entirely inadequate to the present requirements of this port, and too primitive in its methods and conventions. The city of St. Louis should have a suitable Government warehouse within its own limits, and not wooden sheds in East St. Louis, put up temporarily by the railroad companies.

"To insure economy, safety, promptness and convenience to the Government, its customs officials and the importing merchants of our city, there should be a substantial Government building erected in the city of St. Louis, where all the bonded goods for this port should be brought in by the bonded carriers, and thereon safely guarded, and from there promptly delivered to consignees.

"We believe that until the Government recognizes the importance of our city and provides suitable accommodations for the transactions of its vast and growing customs business at this port, there will be no solution of the existing delay, discomfort and dissatisfaction.

"The committee suggests that this matter be brought on before the board of the Treasury, and be backed by our Representatives and Senators in Congress of the United States.

"L. T. Tume reported the progress in the effort to secure permanent title service for St. Louis. An appropriation was made to pay the expense of the committee in visiting Washington and making the necessary application for the improvement.

The question of Missouri River improvement was discussed, and the general opinion was expressed that a permanent organization should be formed to effect this much-needed improvement of the river.

The committee congratulated C. A. Parker, a commissioner of the Colorado Railroad Association, and expressed great appreciation from the Traffic Bureau of St. Louis.

**ICE-BOX ROBBER SENTENCED.**  
Edward Rohlfing Now Has Two Penitentiary Terms to Serve.

Edward Rohlfing, one of the "icebox" robbers, pleading guilty to a charge of robbery in the first degree before Judge Peris yesterday, and was sentenced to serve two terms in the penitentiary. Besides this term, he has a sentence of two years hanging over him for a charge of carrying a dangerous weapon.

Rohlfing was a member of a gang which went about robbing saloons and looking the proprietors in their ice boxes. Though half a dozen saloons were raided by them, the police were able to fasten only one case on Rohlfing. Henry Secker, a saloonkeeper and owner at No. 129 Morgan street, identified Rohlfing positively.

Rohlfing came from England from the rooming house, when he was taken there for arraignment. He succeeded in breaking out of the Central Police station, and was discovered before he had left the Four Courts.

**An Important Difference.**  
To make it apparent to thousands, who think themselves ill, that they are not afflicted with any disease, but that the system simply needs clearing is to bring comfort home to their hearts, as a contrivance is easily cured by using Syrup of Figs. Manufactured by the California Fig Syrup Co. only, and sold by all druggists.

**Of Service to Our Readers.**  
From the Camden, N. C., Messenger.  
We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds and that annoying complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. Its prompt use we haven't any doubt but that it has time and again prevented croup. This testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.

**BARNEY REAGAN, FEATHER WEIGHT, TO BOX FRANK SMITH, "HELLO" ARTIST.**

Police circles are buzzing with rumors of a four-round go, which Sergeant McFarland, as matelotmaker, is arranging between (off) Templemore, Ireland, John Moriarty, a town, in thirty-two seconds, landing a bare-knuckle on his opponent's solar plexus, and inventing that effective blow.

McFarney might have become a professional, but at the outbreak of the Crimean War

sought bigger game in Lord Cardigan's famous Light Brigade, of which he is to-day one of only six survivors of the charge against the Heights of Balaclava. Moriarty will be purchaser, and also make the contract with the kintessop people.

Each man's progress have been ordered to wear sweaters from this day until it is all over with one of them. Smith paid \$5 for a red, white and blue suit in which to win the fight. All are training. So the clear stands are going out of business for lack of patronage, the punching bag is being put out of business by too much patronage, and pugilism is filling up the vacancy caused by a faded interest in politics.

The unit is "doped" to be pulled off in Garnett & Allen's paper factory. Thanksgiving eve, and Chuck Hogan, the patrol wagon driver, is being sought for as "hard man" at the Memphis Admittance will be by invitation, and the house will be made up of police and newspaper men almost exclusively.

**SALOONKEEPER HELD UP.**  
Robbers Compelled Him to Face the Wall.

Joseph Ginochello, a saloonkeeper at No. 124 Olive street, was held up by two men in his place early yesterday morning. They took \$25 in cash from the till, overlooking \$50 which Ginochello had in his pockets. Since then he has been in the bar, about ready to close up the place, when the two men entered. One of them ordered beer and the other a whisky. While Ginochello was preparing to get the liquor one of the men rushed a revolver and told him to turn and stand with his face to the wall and his hands in the air. He did so until they cleaned out the till and departed. Afterwards a report was made to the police, but no one was arrested.
